Please join the members of CILTA Hunter for their next event on Wednesday 18<sup>th</sup> May 2016 for an excellent networking dinner and the opportunity to hear our guest speaker, Professor Morris Altman, talk about the growing role the University of Newcastle is playing in supporting businesses in the Hunter, especially Logistics and Transport businesses.

Please extend this invitation to your industry colleagues. Non-members, guests and University of Newcastle students are most welcome.

**Guest Speaker:** Professor Morris Altman –  
Dean and Head of School - Newcastle  
Business School – University of Newcastle

He was also a visiting professor at Stanford, Cornell, Duke, Cambridge, and Hebrew University. Before moving to Australia, he was the Head of Economics and Finance at Victoria University in New Zealand. Morris joined the University of Newcastle in 2015

The Newcastle Business School is the University of Newcastle's centre for undergraduate, postgraduate and community business education. Their focus is on student-centred, research-driven teaching to develop the skills and attributes needed to sustain a successful career that is based on life-long learning.

As well as their discipline-based content and professional expertise, their academics emphasise communication, independent study skills, awareness of cultural differences, and activities to foster powers of analysis and creativity. Overall their courses aim to cultivate employability skills, which also include teamwork, problem solving, ethical decision making, planning and organising, and effective use of technology. This includes courses that focus on logistics and supply chain management.
