Australia's first automated Metro rail service

Wednesday 13th April 2016
From 5.30pm

Please join CILT-A NSW Section for our upcoming Networking Event.

Guest speaker Phil Hockley, Infrastructure Engineering Manager for Northwest Rapid Transit will present on the design, technology and progress of the project to deliver Australia's first automated Metro rail service.

Phil has over 20 years' experience in the design and delivery of major infrastructure projects and PPPs in 3 continents, focusing in the past 15 years on rail. Northwest Rapid Transit are the consortium awarded the contract by Transport for New South Wales to design and deliver the track, power supply, stations, depot, rolling stock and rail systems and to operate the service for a 15 year period. Phil is responsible for a team of 400 people delivering the designs for the infrastructure
