LIVE WEBINAR

Tuesday, 7 June 2016 - 2pm

ONE HOUR PRESENTATION - FIND OUT MORE ABOUT:
- **SCOR® using the Supply Chain Excellence Methodology**
- **Future technology trend - IoT, Internet of Things**
- **Upcoming from ApicsAU**

Register here: http://bit.ly/1T7eyfH

Join us for this ApicsAU-hosted webinar, designed specifically for the progressive supply chain executive who is eager to explore new methodologies and technology with the guidance of the biggest supply chain industry body in Australia.

Topics to be addressed are:
- **Use strategic business analysis**: Achieve perfect alignment between end-to-end supply chain solutions and target market drivers
- **Streamline Operations**: Improve productivity
- **Optimise Supply and Demand**: Improve customer satisfaction with Internet of Things (IoT)

Drive inefficiencies out of your business systems—and increase your bottom line.

If you are looking to improve your own organisation's supply chain and gain knowledge on how to go about this then this is a must attend event. Don't miss out. **Space is limited.**
